<u>Explanation of State Expenditures:</u> The bill would affect the Indiana Public Retirement System (INPRS) and the State Lottery Commission. Information from INPRS and the State Lottery Commission is not available at this time regarding the costs associated with the provisions in this bill. LSA will update this analysis at such time as the necessary actuarial information is made available.

The State Lottery Commission has its own pension plan, which as of July 1, 2012, had an unfunded accrued liability of \$3 M and a funding ratio of 80.1%. This bill will require current and future employees of the State Lottery Commission to become members of PERF. <u>Background</u>: PERF (State) - PERF is prefunded by employer contributions that are actuarially calculated to equal the benefit accrual cost for the year (normal cost) plus a 30-year amortization of the unfunded accrued benefit liability. As of July 1, 2012, employer contributions for state PERF were 9.7% of payroll.

For prefunded plans, costs are defined as the increase in the unfunded actuarial liability of the fund.
